Retail Packaging

It's the coolest new way to add a personal and protective touch to your iPod, Nano or iPhone. All you need is an inkjet printer and your imagination - **iaPeel makes it that simple!** The glossy synthetic skin material sticks to your player and leaves no residue, allowing you to change designs anytime you choose. Plus it keeps your player good as new, by protecting it from scratches.

Easy to design: Use our software, or come up with a design of your own.

Easy to print: Just run it through your inkjet printer and you're good to go.

Easy to apply: Our videos show you the way - or just follow the directions on the back of the skin.

Easy to remove: Change your mood? Have a new design idea in mind? No sweat. Your iaPeel removes easily so you can update your look at any time.
